

Removal of previous versions of FastTest and GasCert 2009 from the PDA

Please follow the steps below to remove any previous versions of FastTest & GasCert Mobile. This needs to be completed prior to installing SP1.

1. On the PDA select **Start – Settings**

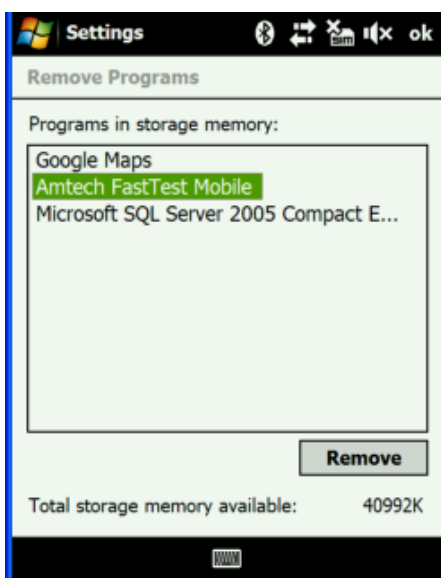

2. Select the **System** tab at the bottom of the screen

3. Select the icon for '**Remove Programs**'

4. Highlight the program '**Amtech FastTest Mobile**' or '**Amtech GasCert Mobile**' and select the **remove** button.

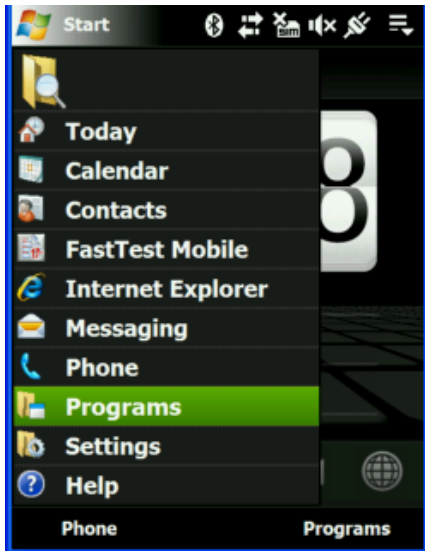

5. A message will appear asking you to confirm the removal of the program, select **yes** to this.
6. Repeat actions 4 and 5 for the following programs: - **Microsoft SQL Server 2005** and **Microsoft .Net CF 2.0**.

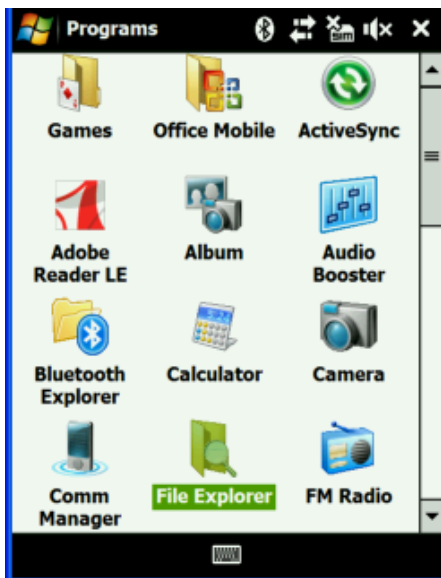

NOTE: Depending on the operating system of the PDA the Microsoft .Net CF 2.0 may not be present.

When all of the above programs have been removed press the 'X or OK' buttons in the top right hand corner and return to the main start screen.

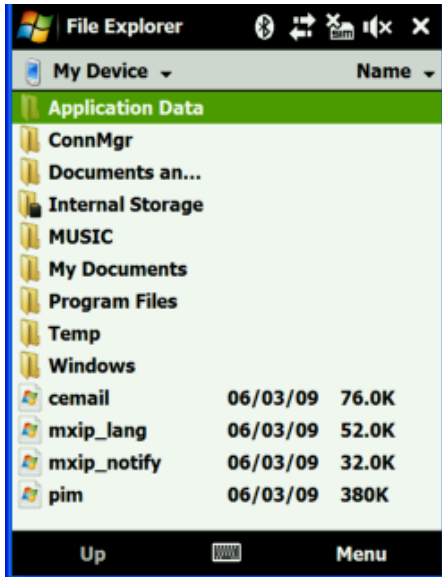

7. On the start screen select **Start – Programs**

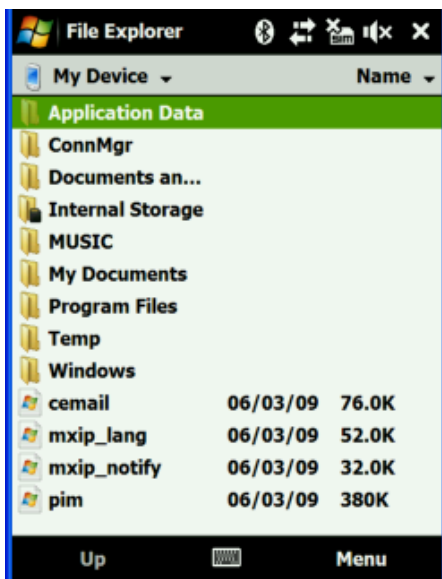

8. Select the icon for **File Explorer**

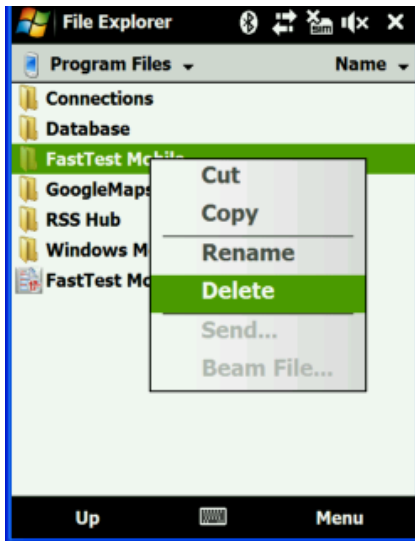

9. In the file location at the top of the screen select '**My Device**'

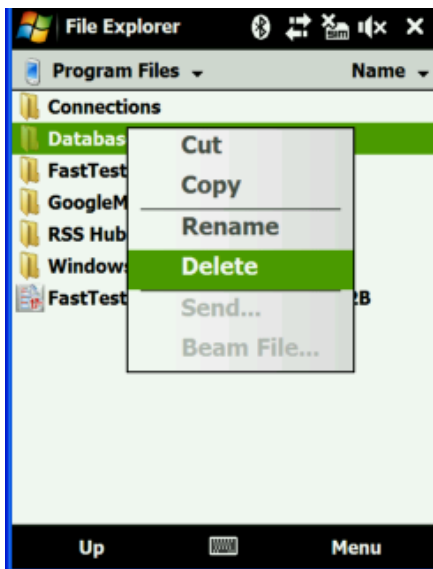

10. In the list of files, select '**Program Files**'.

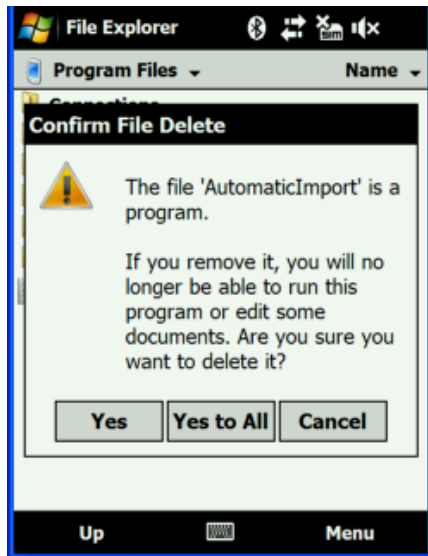

11. Press and hold the 'FastTest Mobile' or 'GasCert Mobile', folder and select **Delete**. The folder will now be deleted.

12. Press and hold the 'Database' folder and select **Delete**.

13. A message will appear informing you that a program 'Automatic Import' will be removed; select the button marked '**Yes to All**'. This folder will now be deleted.

When all of the above programs have been removed press the '**X** or **OK**' buttons in the top right hand corner and return to the main start screen.

You can now proceed to install the 2009 SP1 application.
